Visitors: Laros (Registrar), Hodges (Registrar), Bamburowski (Grad. Studies), Tucker (ARCH), Gentry (ARCH), Dagenhart (ARCH), Scott (CoB), Singhal (CoB), Khan (ARCH), White (CoC), Isbell, (CoC), Kohl (ChBE), Williams (ECE), Sharp (GEFA), Zhou (ECE)

Note: All action items in these minutes require approval by the Academic Senate. In some instances, items may require further approval by the Board of Regents or the University System of Georgia. If the Regents' approval is required, the change is not official until notification is received from the Board to that effect. Academic units should take no action on these items until USG and/or BOR approval is secured. In addition, units should take no action on any of the items below until these minutes have been approved by the Academic Senate or the Executive Board. Substantive change requests also require approval by our regional accrediting body (SACSCOC). These types of changes relate to international programs, new modes of instruction, and other conditions identified on the SACSCOC web site (<http://www.sacscoc.org/SubstantiveChange.asp>).

Academic Matters

1. A motion was made to *approve* a request from the College of Business for new courses, a degree modification, and a course deactivation. The motion was seconded and approved.

New Courses – Approved

MGT 6507: Business Communications	1.5-0-1.5
MGT 6726: Privacy, Technology, Policy and Law	3-0-3

Note: MGT 6726 will be cross-listed with CS 6726.

Degree Modification – Approved

Master of Business Administration

Modification of the MBA Program to allow more MBA electives to be offered in an earlier timeframe and to provide an opportunity to develop students' soft skills. We are changing the ratio of core to elective classes from 30/24 to 21/33 to allow students to take more electives and to have greater depth in their elective concentrations.

- Total credit hours for the modified curriculum will not be changed and will remain at 54.
- The new curriculum reduces most MBA core courses to 1.5 hours. The majority of core classes will be taken during the students' first semester, allowing them earlier exposure

to the functional areas of business. Pushing the majority of core to the first semester allows students to take electives earlier to support their search for summer internships or career moves.

- All 1.5 hour courses are taught for three hours per week for 7 1/2 weeks.

Degree Modification – Approved

Master of Science in Computer Science

- Reduce the total number of credit hours required for the MSCS degree from 36 to 30.
- Each concentration will now include at least 15 credit hours of Core and Elective classes. This is an increase from the current minimum of 12 credit hours and is intended to ensure greater depth in each concentration.
- The five concentrations in which most courses are taught by faculty in the School of Computer Science — Architecture, Databases and Software Engineering, Information Security, Networking, and Systems — be dropped and be replaced by a specialization in Computing Systems.

3. A motion was made to *approve* a request from the School of Electrical and Computer Engineering for new course. The motion was seconded and approved.

New Course – Approved

ECE 7056: GT-TU Audit only 12-0-12

Note: This is a non-billable course for GT-Shenzhen students who are also graduate students at Tianjin University during terms when they are not taking other Georgia Tech courses.

4. A motion was made to *table* a request from the School of Chemical and Biomolecular Engineering for new course. The motion was seconded and approved.

New Course – Tabled

CHBE 6050: The Science and Engineering of Microelectronic Fabrication 3-0-3

Note: This course was tabled but can be resubmitted for approval once an additional faculty member is added to the list of possible instructors.

5. A motion was made to *approve* a request from the School of Architecture for new courses, a degree modification, and course deactivations. The motion was seconded and approved.

New Courses – Approved

ARCH 6251: Building Structures I	2-3-3
ARCH 6252: Building Structures II	2-3-3
ARCH 6069: Advanced Architectural Design Studio I	1-15-6
ARCH 6070: Advanced Architectural Design Studio II	1-15-6

Requesting to approve new Arch 6069 and 6070 Advanced Architectural Design Studio I and II to replace deactivated Arch 6051 and 6052 Options Studio I and II. No content changed in these courses; it was a name change only. Students will not be allowed to get credit for both the old and new versions of the course. Since these courses are set up with “permit only” access during registration, the School will ensure that students who already took the old versions will not be allowed to register again in the new versions. The word “advanced” will be spelled out on the NCPs so that it will appear as such on the transcript.

Course Deactivation – Approved

ARCH 6051: Options Studio I
ARCH 6052: Options Studio II

Degree Modification – Approved

Master of Architecture

In summary, we are requesting to

- Rename two Professional Studio courses, no content change
- Consolidate the current 3 course Structures sequence into 2 Graduate level courses

- Eliminate Practice of Architecture II (Arch 6316) as a required course in the Master of Architecture curriculum and replace it with a menu of practice-focused electives requiring the student to choose one 3 hour practice focused elective to complete the sequence. This change will allow more flexibility of choice for the student, dependent upon his/her career goals, and will ensure that the topics remain relevant to the profession. These changes will result in a reduction in required hours in the degree program from the current 108 to 102, while although still high, this hour load requirement puts our program more in line with our peer institutions.
