Note: The Committee asked the Subcommittee to develop a new form that contains some self-check items so that courses would not be submitted if they clearly do not meet the requirements for a specific attribute. It was also suggested that there be a feed-back loop for the requesting units reporting the decision of the Committee and why proposals were denied. This would educate the campus community about how to go about making a good case for getting the attribute approved. The Registrar's Office will work on both suggestions.
