Bachelor of Science in Computational Media: all thread combinations

CM is requesting to switch from the capstone (CS4912, 3-credits) to the same 4-course 6-credit Junior Design that CS uses. The extra 3 credits will come from free electives (since CM does not currently require the Technical Writing portion

of Junior Design). The CM curriculum committee feels that Junior Design better achieves the pedagogical goals of the capstone (project design, communication), and does it in advance of the project classes the students take in their final year (making these classes more effective).

We are requesting to change the research option for CM and to add a VIP option, to allow for a better student experience. Students completing Research for their junior design requirement will now be required to complete the Institute's Research Option which includes 9 hours of research, of which 6 must be on the same research project and LMC 4701 (1 hour)- Undergraduate Research Proposal Writing and LMC 4702 (1 hour) Undergraduate Research Thesis Writing. The Research Option will satisfy their junior design requirement.

Students completing VIP for their junior design requirement will be required to complete at least four semesters of VIP. (VIP 1 + VIP 2 + VIP 3) (for a total of 5 credits) + VIP 4 (3 hours) = 8 hours of VIP credit. VIP 4 must be taken in the senior year, and 2 of VIP 1 – 3 must be taken in the same VIP section as VIP 4. The VIP program will add a 4000-level section of VIP specifically for students using VIP for capstone, and the CM advisor will check that the appropriate conditions are met before registering for this final VIP section.

If a student begins one option, and changes their mind, they will have to start and complete a different alternative (no mixing of junior design options).

Capstone Requirement	3	CS 4912	C
	1	CS 3311, or CS 4699, or LMC 4699, or	C, e
	2	ECE 3000-4000	c
	2	LMC 3432, or LMC 3403, or LMC 4701	c, e
	1	CS 3312, CS 4699, or LMC 4699, or ECE 3000-4000 LMC 3431, or LMC 4702	c

(Note: It was also noted that free electives hours will be reduced by 3 hours for each thread combination)
