Proposed new language regarding tentative honors:

XIII. Undergraduate Degrees

E. Graduation with Academic Distinction

1. For graduation with highest honor, the minimum scholastic average shall be 3.55. For graduation with high honor, the minimum scholastic average shall be 3.35. For graduation with honor, the minimum scholastic average shall be 3.15.
2. A student must have earned at least sixty semester credit hours (excluding remedial coursework) at Georgia Tech to graduate with highest honor, with high honor, or with honor.
3. In order to qualify for graduation with honors, all grades or grade corrections affecting the honors designation must be received and certified by the registrar no later than noon on Wednesday following the commencement.

Tentative honors at graduation are determined by the grade point average and number of hours accumulated entering the graduating term. In order for students to receive honor cords for the commencement ceremony, they must qualify for honors according to the requirements *before entering their final term. This latter phrase is the only change.*

This was approved unanimously by the committee.

The Committee also responded to a request from Robert Kirkman to answer some questions concerning workload, possible mission redundancy, etc. The chair will forward our responses to Professor Kirkman.
