Introduction

Members of the Welfare and Security Committee attended the meeting for the Staff Physical Environmental Committee as suggested by the Faculty Board and discussed in prior meetings of this committee.

Discussion

Discussion was had amongst the members present for both committees regarding the overlap of interests. It was suggested that it is worth considering either fully combining the committees or maintaining collaboration so that there is no duplication of effort. It was generally agreed that there may be benefit in doing so.

Action Items

The Welfare and Security Committee should continue to explore this avenue with the Staff Physical Environmental Committee.
